If you had dietary staff that worked in multiple care communities, were they allowed to continue to work in your community during the pandemic?

Was your consultant Dietitian allowed to come into your building during the pandemic?

Yes
No, dietitian worked their contracted hours offsite and collaborated with staff weekly
No, dietitian was on call and consulted with staff when needed
No, foodservice staff worked with nursing staff to complete clinical assessments without dietitian input
N/A - we do not use a consultant dietitian
