Phase II

What's Here and Now? Phase II: November 28, 2017

Phase II went into effect November 28, 2017, and includes revised F-Tags, interpretive guidance for existing requirements and a new computer-based, annual LTC survey process. This new survey process is nationwide, blending both elements of the traditional survey and Quality Indicator Survey processes. Nursing facilities are responsible for demonstrating compliance with the Phase I requirements during their 2017 annual surveys and need to focus on both the Phase I and II requirements in order to avoid the potential for survey deficiencies and negative outcomes. It is important that facilities have a plan to address all the changes outlined in both phases including processes to review current practices to secure effective and efficient adherence to the new standards.

Additional Phase II Focus Areas Include:

- Behavioral Health Services
- Quality Assurance and Performance Improvement - QAPI
- Infection Control - Facility Assessment & Antibiotic Stewardship
 - Compliance & Ethics
- Physical Environment - Smoking Policies

CDM, CFPPs need to review these new focus areas to see where food and nutrition services plays a role in helping their facility's team safeguard residents and be compliant with the new regulations.

When do your credentials expire? If you don't know it's a good idea to find out:

- How many CE units do I need to keep my credential?
- How long do I have to achieve?
- Where should I go to get CE units?

The Annual Conference and Regional meetings are a great place to earn a lot of CE units in one place. If that is not possible you can purchase bundles on the ANFP website.
