NFEF AWARD

2026 FOODSERVICE DEPARTMENT OF THE YEAR AWARD

Odessa Memorial HEALTHCARE CENTER

Odessa Memorial Healthcare Center located in Odessa, Washington has earned the NFEF's 2026 Foodservice Department of the Year Award for prestige, recognition, reputation, and status.

The Foodservice Department at Odessa Memorial Healthcare Center exemplifies a highly coordinated and collaborative team environment where clear communication, shared accountability, and cross-functional cooperation are integral to daily operations. Staff consistently communicate across shifts and roles to ensure continuity of service, accurate diet implementation, and timely resolution of challenges. Information—including menu updates, diet modifications, supply concerns, and patient needs—is shared promptly and effectively, minimizing errors and preventing disruptions. Team members demonstrate a strong commitment to supporting one another beyond their defined responsibilities. During periods of increased demand, staffing shortages, or unexpected challenges, staff seamlessly adjust roles and workflows to maintain service standards without compromising food safety or patient satisfaction. This adaptability ensures that each function operates as part of a unified system rather than in isolation. The department fosters a culture rooted in respect, reliability, and ownership. Employees understand the impact of their individual contributions on the broader operation, which strengthens accountability and instills pride in collective success.

UPDATES FROM NFEF

The Foundation's Research Advisory Group met throughout the year, beginning with a review of the current research priorities. Based on the group's recommendations, outreach efforts were made to establish a relationship with the Foodservice Systems Management Education Council (FSMEC). The Council, comprised of university-level foodservice educators, has expressed interest in assisting with several of these priorities.

The advisory group also reviewed a proposal from Brigham Young University for a study related to research questions identified within NFEF's current research priorities. NFEF anticipates that Phase 1 of the study will begin in FY27.

The Foundation worked with the Fundraising Advisory Group and the Grants & Awards Committee on development of the CommUNITY Grant, a new program initiated by ANFP's BC&C Committee.

NFEF depends on the generous support of corporate sponsors, annual fundraising events, and individual donors to advance its mission. These contributions fund the foundation's three core initiatives: original industry research, grants for current and aspiring CDM, CFPP professionals, and educational programs.
