"Roger's infectious energy will keep you engaged throughout his entire presentation. In the presentation I attended, he emphasized the importance of building quality relationships through transparency and trust to improve team dynamics. By breaking these themes down into common sensical-sized bites with a touch of humor, his delivery is exceptional. 5/5 stars, you're missing out if you don't have Roger speaking at your next event!"

— Britt Gottschalk, CEO at ReVise Consulting

Roger is an **emotional intelligence expert** who helps you and your organization visualize change, improve communications and culture, and develop leadership. Authenticity and trust are principal themes in his programs.

Roger inspires and coaches you how to connect better with others. Your results are higher **engagement**, increased **productivity**, and increased **focus** on achieving goals.

Your Emotional Intelligence Recipe for Success

Emotions get us every time. **We all feel emotion.** It's what we do after we experience them that defines us. Emotional intelligence is all about your awareness and relationship with people.

Roger is a former (recovering) project manager and an expert in the field. He has successfully led dozens of projects and coached thousands of people.

Discover how EQ is a skill and practice that promises to have a positive influence on your life. You will learn the value emotional intelligence brings to how you approach your work and your relationships with colleagues and the people you serve.
