**ANFP** | MINNESOTA

Association of Nutrition & Foodservice Professionals

This past year, Minnesota ANFP focused on assisting members and facilities with understanding and implementing the foodservice and nutrition components of the new regulations for assisted living in their state. The regulations allowed the chapter to highlight the expertise of the CDM, CFPP and all they can bring to the table. It was also the perfect opportunity to position the CDM, CFPP as subject matter experts in the assisted living environment. The chapter provided a continuous stream of education, information, and updates to their members to ensure they were informed and knowledgeable of all the changes and could be used a resource when implementing these changes.
